on deck Length - 75 feet 6 inches
width - 36 1/2 feet

Lifeboat of Joseph Francis

Iron boat 10 1/2 feet long
4 ft 2 inches wide

weight only 148 lbs - contains an
air chamber at each end 14 feet cubic ^{on average}
air - which is equal to ~~15~~ 896 lbs.

432 cubic inches of air (will hold up .15 lbs
of iron.) which is about 1/4 of a cubic foot
15 lbs will hold up a man from sinking below
his chin ^{in water} 1 square foot of water weighs 60 lbs

cubic - 432 inches of air will hold up 1 man that is 1/4
of 1 foot cubic of air or 1728 inches

14 feet will therefore hold up 50 men but allow
some thing & above boat will keep 50 men from
sinking in the water
